

Safety & Security

...insist on it.

Valley Air Service, Inc. aircraft are meticulously maintained to meet and exceed strict standards set forth by the Federal Aviation Administration. Our fleet is fully-equipped for all-weather travel.

Established in 1994, Valley Air Service, Inc. remains an incident- and accident-free organization.

The Best Pilots in the Business

Our professional captains are Airline Transport Rated and regularly train at FlightSafety International, the finest training facility in the world. We firmly believe that the best safety device in any aircraft is a well-trained pilot.

Security

Traveling in a secure environment is of the utmost concern to you. Therefore, stringent security measures are in place well before you board our aircraft. In accordance with the Transportation Safety Administration, Valley Air Service, Inc. has established one of the most stringent security policies in the charter industry. Rest assured, your safety and security will never be compromised with Valley Air Service, Inc.

Convenience

...depend on it.

Aircraft Charter allows you to:

- Determine your own schedule
- Board away from crowds through private, secure terminals at one of the many airport locations nearest your home or office
- Avoid the long lines and delays which define air travel today
- Direct access to thousands of locations not serviced by major airlines
- Determine your own itinerary, with as many or as few stops as you require
- Eliminate overnight stays by visiting multiple clients in one day
- Increase employee productivity by eliminating time lost in crowded terminals and flight delays
- Travel with your entire team ensuring complete privacy, as well as time to prepare for your meeting enroute to your destination

Luxury

...you've earned it.

Whether traveling for business or pleasure, our commitment to creating a seamless trip begins when you call us. Not only do we take care of your flight, but our **FIVE STAR CONCIERGE** will also coordinate all the details of your trip.

Ground Transportation:

Whether you request a limousine, rental car or taxi, we will make sure it is waiting for you just steps from your aircraft when you arrive at your destination.

In-flight Catering:

From croissants to caviar, we'll cater to your personal tastes and special dietary needs. Freshly baked birthday cakes, flower arrangements or a special bottle of champagne can also be provided for special occasions. Every flight includes a lavish array of complimentary snacks and beverages.

Total Comfort:

Relax in our luxurious cabins complete with pillows, blankets and your favorite reading material. The crew is at your service as you travel in complete comfort and privacy.

Exclusive Pet Program:

Our PAWSSPORT Program ensures your four-legged companion enjoys the flight as much as you do. Pets travel in the main cabin and receive a customized PAWSSPORT and gift basket on all flights.

Aircraft Management

If you are considering, or already own an aircraft, but don't want to deal with the hassles of maintaining a corporate flight department, let Valley Air Service, Inc. handle your **Aircraft Management** for you.

Since Valley Air Service, Inc. is owner-operated, we handle your aircraft with the same attention to details as our own. Let us handle your maintenance, crews, insurance, training and hangar, so you can concentrate on your business.

We can also show you how to help defray the costs of aircraft ownership by utilizing your aircraft when you're not using it. Tax advantages are just another benefit of aircraft ownership. Call us and we'll be happy to structure a management program tailored to meet your needs.

Don't want to own a jet, but fly charter frequently? Ask about our **Block Time Program** for deep discounts.
